

Waste Consultants / Managers

Type of Post	:	Permanent
Speciality	:	Decommissioning
Country	:	UK
Region	:	UK Wide
Hours	:	37.5 per week

Role Description

EDF is the world's leading nuclear power station operator, currently operating 71 reactors in France and the UK. As such, EDF has a vision to become the European Leader in Decommissioning and Waste Management, providing services to other nuclear operators and ensuring mastery of the decommissioning process for its own fleet. To support this vision, EDF has established the Cyclife Group to deliver commercial decommissioning and waste services in the market. Cyclife UK currently has four business lines covering: Consultancy, Site Projects, Waste Treatment and Decommissioning via a nuclear-licensed waste treatment facility in Cumbria and international facilities in Sweden and France.

Cyclife UK is working closely with its sister company EDF Energy and we have a number of roles available to support the AGR decommissioning Programme – including technical roles of waste managers, waste designers and waste consultants.

Your Work Environment

Duties and Responsibilities

- Successful delivery of assignment Projects within the time, cost and quality constraints imposed. Provide relevant input into business development elements as required.
- Work as a member of a team or where appropriate lead Consultancy and decommissioning projects in accordance with Cyclife UK Management arrangements as well as the requirements of clients.
