Statutory Auditors' Report on the consolidated financial statements

Year ended December 31, 2016
Electricité de France S.A.
22- 30, avenue de Wagram – 75008 Paris

This is a free translation into English of the Statutory Auditors' report on the consolidated financial statements issued in French and is provided solely for the convenience of English speaking readers.

This Statutory Auditors' report includes information specifically required by French law in such reports, whether qualified or not. This information is presented below the audit opinion on the consolidated financial statements and includes an explanatory paragraph discussing the auditor's assessments of certain significant accounting and auditing matters. These assessments were considered for the purpose of issuing an audit opinion on the consolidated financial statements taken as a whole and not to provide separate assurance on individual account balances transactions, or disclosures.

The report also includes information relating to the specific verification of information given in the Group's management report.

This report should be read in conjunction with, and is construed in accordance with, French law and professional auditing standards applicable in France.

Statutory Auditors' Report on the consolidated financial statements

To the Shareholders,

Following our appointment as Statutory Auditors by your General Meeting, we hereby report to you, for the year ended December 31, 2016 on:

- the audit of the accompanying consolidated financial statements of Electricité de France S.A. (the "Group");
- the justification of our assessments;
- the specific verification required by law.

The consolidated financial statements have been approved by the Board of Directors. Our role is to express an opinion on these consolidated financial statements based on our audit.

1 Opinion on the consolidated financial statements

We conducted our audit in accordance with professional standards applicable in France; those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, using sample testing techniques or other selection methods, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting policies used and significant accounting estimates made, as well as the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities, and of the financial position of the Group and of the results of its operations for the year then ended in accordance with IFRS as adopted by the European Union.

Without qualifying our conclusion, we draw your attention to the following matters set out in the notes to the consolidated financial statements:

- the impacts of the change of accounting estimate at 1 January 2016, as described in note 3.1 and relating to the extension to 50 years of the accounting depreciation period of the 900 MW PWR power plants in France;
- the valuation of long-term provisions relating to nuclear electricity production, which results from management's best estimates and assumptions as described in notes 1.3.2.1 and 29 to the consolidated financial statements. This valuation is sensitive to the assumptions made concerning technical processes, costs, inflation rates, long-term discount rates, depreciation period of the nuclear power plants as well as forecast cash outflows. Changes in these parameters could lead to a material revision of the level of provisioning.

2 Justification of assessments

In accordance with the requirements of article L. 823-9 of the French commercial Code, we have made our own assessments which are brought to your attention, in relation to the following matters:

Management judgments and estimates

Note 1.3.2 to the consolidated financial statements describes the main sensitive accounting policies for which management exercises judgment and makes estimates, based on macro-economic assumptions appropriate to the very long-term cycle of Group assets. It may be possible that future results could differ from those estimates, which were made in a context of prolonged market decline, thus resulting in difficulties to assess the economic outlook in the medium term.

Particularly, the Group describes in the notes to the consolidated financial statements the information related to:

- the main assumptions and indicators used for the purposes of testing goodwill and long-lived assets for impairment and recognizing the impairment charges (notes 1.3.15, 13 and 23);
- the provisions for employee benefits, other provisions and contingent liabilities (notes 31, 32 and 45);
- the methods used to account for the shortfall in the compensation and the financing mechanism for Public Energy Service Charges - *Compensation des charges de Service Public de l'Énergie* - (notes 4.4 and 36.3).

Our procedures consisted in assessing these estimates, data, assumptions, and as applicable, the legal opinions on which they are based, reviewing, on a test basis, technical data and calculations performed by the Group, comparing accounting estimates of prior periods with corresponding actual amounts, reviewing the procedures for approving these estimates by management and finally verifying that the notes to the consolidated financial statements provide appropriate disclosures.

These assessments were made as part of our audit of the consolidated financial statements taken as a whole and contributed to the opinion we formed which is expressed in the first part of this report.

3 Specific verification

As required by law we have also verified, in accordance with professional standards applicable in France, the information relating to the Group, given in the management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.
