4. REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES

- (i) Reasons for the offer: The net proceeds of the issuance of the Notes will be allocated within the Issuer’s treasury liquidity portfolio to a sub portfolio (the “**Green Project Portfolio**”) for the investments in Eligible Projects (as defined below). Pending application of the net

proceeds for investment in such Eligible Projects, the Issuer will hold such net proceeds, at its discretion, in cash or other liquid marketable instruments in its liquidity portfolio. The balance of the Green Project Portfolio, until such amount is used in full, will be reduced at the end of each annual period by the amounts invested in such annual period in Eligible Projects. The Issuer will establish systems to monitor and account for the net proceeds in order to ensure the allocation of such net proceeds to the Green Project Portfolio for the investments in Eligible Projects.

“Eligible Projects” means **“Eligible EDF EN Projects”** and **“Eligible French Hydro Projects”**. Proceeds of the Notes will be limited (i) to investments in Eligible EDF EN Projects identified by EDF Energies Nouvelles, a subsidiary of the Issuer which was incorporated for the purposes of the production of renewable energy and develops, installs and operates green electricity power plants, mainly in Europe and North America, primarily for its own owner-operator account and for third parties, and (ii) to investments in Eligible French Hydro Projects identified by EDF Hydro Division, a division of the Issuer which operates and maintains hydropower generation facilities located in mainland France.

“Eligible EDF EN Project” means financing (through making loans or through equity investments or otherwise) the construction costs and/or development of (i) new renewable energy projects meeting the environmental and social criteria applicable to EDF EN projects (**“EDF EN Project E&S Criteria”**) as annexed to the EDF Green Bond Framework available on the Green Bond section of the Issuer’s website

(www.edf.fr/green-bonds-en) and/or (ii) existing renewable energy projects meeting the EDF EN Project E&S Criteria which have not yet started or been externally financed at the issue date of the Notes that EDF Energies Nouvelles may develop or invest in after the issue date of the Notes.

“Eligible French Hydro Project” means financing the investments in hydropower facilities in mainland France, meeting the environmental and social criteria applicable to mainland France hydro projects (**“French Hydro Project E&S Criteria”**) as annexed to the EDF Green Bond Framework available on the Green Bond section of the Issuer’s website (www.edf.fr/green-bonds-en), and corresponding at least to one of the three following categories: (1) renovation and upgrade of existing hydropower facilities in mainland France, (2) modernisation and automation of existing hydropower facilities’ maintenance and operation in mainland France, (3) hydropower development projects in mainland France.

Deloitte & Associés, one of the joint independent statutory auditors of the Issuer, is expected to issue a report on (i) the compliance with the four components of the Green Bond Principles defined by the International Capital Market Association, (ii) the compliance, in all material respects, of the Eligible Projects with their relevant E&S Criteria, (iii) whether the balance of the proceeds in or the amounts of Green Project Portfolio used are consistent with data underlying the accounting records, as well as (iv) the compliance, in all material respects, of the methods used by the Issuer to estimate the CO₂ emissions avoided by the financed Eligible Projects with the methodology disclosed. This report will be issued once a

year until the net proceeds are used in full or the maturity date of the Notes, whichever comes first.
