COMBINED SHAREHOLDERS' MEETING
18 MAY 2017

The EDF Combined Shareholders' Meeting was held on Thursday, 18 May 2017 at the Salle Pleyel in Paris, bringing together more than 900 people.

SEQUENCE OF EVENTS

10:02 am - Meeting opened by Jean-Bernard Lévy, Chairman and CEO, and Pierre Todorov, Group Senior Executive Vice President - Group General Secretary.

10:14 am - Jean-Bernard Lévy takes stock of 2016, a particularly active year for EDF, during which the company was able to demonstrate its ability to meet complex challenges in France and worldwide. He then expressed his confidence in the Group's future.

"As in previous years, your company has remained profitable, despite persistent low prices on the European markets, despite growing competition, and despite challenges in generation.

One of the highlights in the last few months is the fact that we were able to successfully secure our financial trajectory, which I presented to you one year ago.

Last year, I announced: a capital increase of €4 billion, done – better control of our investments, that is what we're doing – a commitment to reduce our operating expenses, that is what we're delivering – an asset disposal plan, done, three years ahead of schedule.

Thanks to you and to the government's commitment, thanks to the efforts of our 160,000 employees, we have the means to achieve our goals in France and worldwide.

We have a clear strategy, CAP 2030, which is well-known and appreciated.

We remain firmly positioned among the global leaders in electricity.

We play a key role in the energy transition by providing consumers with increasingly low carbon electricity and by turning customers into prosumers involved in their energy consumption."
